TENTATIVE AGENDA

	<u>COMMITTEE ACTION REQUESTED</u>
1. <u>Call to Order</u>	
2. <u>Approval of the April 21, 1998 Meeting Minutes</u>	2. Review and approve the minutes of the April 21, 1998 meeting.
3. <u>New Federal Law on the 1991 Carbon Monoxide Federal Implementation Plan</u>	3. For information and discussion.
Effective May 1, 1998, Congress passed Public Law 105-174 which prohibits the imposition of the 1991 Carbon Monoxide Federal Implementation Plan in Arizona (FIP).	

This includes the FIP contingency process which called for a ten-month highway delay for carbon monoxide violations after December 1991. It also includes the FIP conformity procedures. Please refer to the enclosed material for this item.

4. Legislative Update

During the 1998 session, the Arizona Legislature passed S.B. 1427 which contains several air quality measures. A report will be given. Also, a map of the final version of Expanded Area A is enclosed.

5. Status Report on the Serious Area Plans for Carbon Monoxide and PM-10

Now that the 1998 Legislative session is over, MAG is in the process of evaluating the impact of the new air quality measures on carbon monoxide and particulates. Also, Maricopa County and the local governments will be requested to submit their commitments to implement additional measures for the Serious Area PM-10 Plan by **July 31, 1998**.

Collectively, there are approximately six measures which need additional commitments. They include: Clean Burning Fireplace Ordinances; (Public) Unpaved Roads and Alleys; Unpaved Shoulders on Targeted Arterials, Unpaved Parking Lots; Vacant Disturbed Lots; and PM-10 Efficient Street Sweeping.

6. Final Most Stringent Measure Report

On April 29, 1998, the MAG Regional Council took action to approve fourteen potential measures for consideration which may be the most stringent in any State for PM-10 sources located in the Maricopa nonattainment area and request that the potential implementing entities consider them for implementation, if feasible.
